

FAQ

1 • Is it possible to move coloured energy into the “earth” area?

No. Only the negative (black) energy “goes back” to the earth.

2 • Is it possible to move up energy into a *Bhagya Bubble*?

No. You may place energy into the *Bhagya Bubbles* only when performing the “Receive energy” action.

3 • Is it possible to “disharmonize” a Chakra?

No. Once a Chakra contains 3 energy of the required colour, you cannot move this energy any more.

4 • Is it possible to move energy once it is alleviated?

No.

5 • Is it possible to get the *Harmonization bonus* with only the red Chakra harmonized?

Yes.

6 • Can a player place their 5 *Inspiration tokens* into the notches?

Yes... if the 5th token allows you to place the 3rd required energy on a Chakra, thus harmonizing it, and allowing you to get back your *Inspiration token* immediately. In any other case, we strongly advise you against it: you wouldn't be able to perform any other action until the end of the game!

New Plenitude Levels Chart:

Plenitude Levels

20 or more plenitude points:
You are the **Wise One**: you have reached spiritual enlightenment! Now you must inspire your loved ones...

17 to 19 plenitude points:
You are a **great disciple**: the pupil will soon surpass his master!

14 to 16 plenitude points:
