

Cruella De Vil's Objective

Start your turn with at least 99 captured puppies.

To achieve Cruella De Vil's Objective, you must add Puppy Tokens from the Supply to locations in your Realm, then capture them.

Special Setup

Turn the 12 Puppy Tokens face down (red side showing), mix them up, and keep them in a pile next to your Board to form a Supply.

Puppy Tokens

Puppy Tokens represent the puppies that Cruella De Vil must capture, with each Puppy Token representing either 11 or 22 puppies.

In order to capture Puppy Tokens, they must first be taken from the Supply and added to your Realm. Each Puppy Token features one of the four locations in your Realm. When adding a Puppy Token to your Realm, reveal the Puppy Token and place it face up at the location specified.

Note: Each time you add a Puppy Token to your Realm, you may choose one from the Supply that is face up or face down. Once a Puppy Token has been revealed, it can never be turned face down again, even if it is returned to the Supply.

Note: Place captured Puppy Tokens below your Board, keeping them face up so all players can see how many puppies have been captured.

Activated Abilities

Cruella De Vil has some cards with Activated Abilities. See the Instructions for details on how cards with Activated Abilities are played and their Abilities activated.

Flashlight and Horace bring Puppy Tokens into your Realm. Horace and Jasper capture Puppy Tokens from your Realm. Telephone can help put Horace and Jasper back into play from your discard pile.

Roadster

Roadster can help you move Puppy Tokens to locations so they can be more easily captured. When moved, Roadster can move to any location.

Horace and Jasper

Cruella De Vil has only two Allies, and they must be used to capture puppies and defeat Heroes. Getting them into your Realm quickly and keeping them there will be important to obtaining your Objective.

You Idiots! allows you to choose an Ally from your deck and put them into your hand. This will help get Horace or Jasper into play quickly.

When an Ally with Fireplace Poker attached to them is used to defeat a Hero, you may discard Fireplace Poker instead of that Ally, allowing them to stay in your Realm longer.

If Telephone is in your Realm, it can be activated to choose an Ally from your discard pile and play it to any location.
