Play will always continue in the order of the following phases until there are no new action cards to draw during the action card refresh phase, triggering game end.

ACTION CARD REFRESH PHASE: Move the bottom action card in each row face up into its discard pile, shift the remaining cards down, and draw 1 card for each row.

TURN ORDER PHASE: Players will all hold out a secret bid of yen to determine player order. The highest bidder wins, ties switch positions unless bidding 0.

MOVEMENT PHASE: All players now move their meeple up to 2 spaces (no diagonal movement), starting with the first player in player order.

ACTION PHASE: Players will assign available discs in turn order, to a single action one at a time, until no one has any discs left, or they pass for yen.

TRAIN PHASE: All active running trains will now move 5 spaces (or more if there are speed tokens assigned), and payouts will be made for stations hit.
